OXY 4 Air Purifier™

Advanced Ionic Photo-Oxidation

Why Air Purification?

Clean air is an essential element for vibrant Health....yet...it is also one of the most heavily polluted. Did you know that indoor breathing environments are typically more contaminated than outdoor air? (EPA)* The recent pandemic has shown us how airborne pathogens and virus can travel in confined indoor air spaces. Increased energy costs have made homes, offices & buildings airtight. These confined living spaces trap & concentrate airborne particulates like virus, molds, bacteria, microbials, gases, & VOC's.....including some that are highly toxic. Consider the fact that we now spend 90% of our life indoors, living, breathing, & growing in artificial environments. The question is...are they healthy? (*as per EPA studies)

Did you know that many harmful microbials & pathogens travel & infiltrate through air & common contact surfaces? Washing hands, though recommended, is often insufficient. Trapped indoor virus & airborne contaminants can contribute to respiratory illness, allergy, asthma, sinusitis, congestion & compromised immune systems.

OXY 4 - 99% inactivation on many airborne Microorganisms including Corona Virus

What about Odors and VOC's indoors?

In addition to microorganisms, modern living spaces trap & concentrate gases, chemicals, odors & VOC's (volatile organic compounds). These are released via modern synthetics, paints, cleaning chemicals, furniture, carpet and adhesives creating the potential for a harmful or toxic mix.

UP TO 90% REDUCTION OF MANY ODORS, VOC'S AND GASES

ACTIVE IONIC CLEANSING - WORKS 24-7/365 DAYS A YEAR!

At Respicaire, we specialise in the removal, cleansing, elimination & treatment of airborne & surface particulates, microbials, pathogens, VOCs, gases & odors. Our latest innovation is the OXY 4 Air Purifier, offering unequalled air cleaning value. It features our advanced ionic oxidation technology to help cleanse & revitalize your entire indoor living & breathing environment. Our technology treats the entire living space regardless of where contaminants may be.

ACTIVE IONIC OXIDATION

Respicaire OXY-QUAD air cleansing technology

The Respicaire OXY 4 Air Purifier mimics "Mother Nature's" air cleansing processes by producing four ionic air oxidizers. These advanced air cleansers - Hydro Peroxides, Hydroxyls, Super Ionized Oxygen & Oxidizing Ions - seek out airborne & surface contaminants to help detox your indoor air. Our OXY QUAD system combines ESA* titanium dioxide with broad spectrum Ultra Violet light. This clever combination creates Ionic Catalytic Reactions producing highly effective, natural oxidative Air Cleansers. These "hunter oxidation molecules" migrate throughout the indoor living space - A Highly Effective & Efficient Air Cleansing Process. In fact, in independent tests, the OXY 4 has been shown to inactivate & neutralize 99% of the pandemic corona virus known as SARS-CoV-2 in seconds. While real world results can vary, it helps to know that we take pride in our product performance and invest constantly to confirm efficacy.

*ESA - EXTENDED SURFACE AREA - HIGHEST IN THE CATEGORY

Independently tested for Proven Performance & Solid Purchase Value

All Respicaire products are independently tested by 3rd party industry recognized labs. The OXY 4 test results are excellent with 99% inactivation rates on some of the most challenging airborne organisms including the pandemic Corona virus known as SARS-CoV-2, MRSA, Influenza, H1N1 E-Coli, S. Aureus, E. Faecalis S Pneumoniae and more. The OXY 4 helps reduce many common Odors, Gases and VOCs'.

Corona Virus Reduction

Maintenance

Respicaire OXY 4 Ultra Violet Air Purifiers feature our catalytic 9000 hour multi spectrum lamps. We recommend annual lamp replacement to ensure optimum performance and air cleansing.
